BECAUSE

YOUR PEOPLE MATTER

DRIVEN BY POSSIBILITY™

IMPROVES ERGONOMICS

Easier MXT routing reduces fatigue and strain during installation, which can reduce Lost Time Incidents. Fewer injuries lead to a stable work-force and employee satisfaction.

20 → 6 HOSES

SIMPLIFIES HOSE OPTIONS

MXT Consolidates 20 hoses into 6, which makes training new employees faster and allows Operators to concentrate on their task, not hose selection.

EASIER TO BEND

With 40% less force-to-bend, MXT is faster to install and easier to route, which increases productivity while also taking care of your people.

LIGHTER TO CARRY

MXT is easier to lift and move, especially for employees performing repetitive tasks.

MXT™

KEEPS YOUR WORK FORCE SAFE AND ON THE JOB

BECAUSE

INVENTORY COSTS

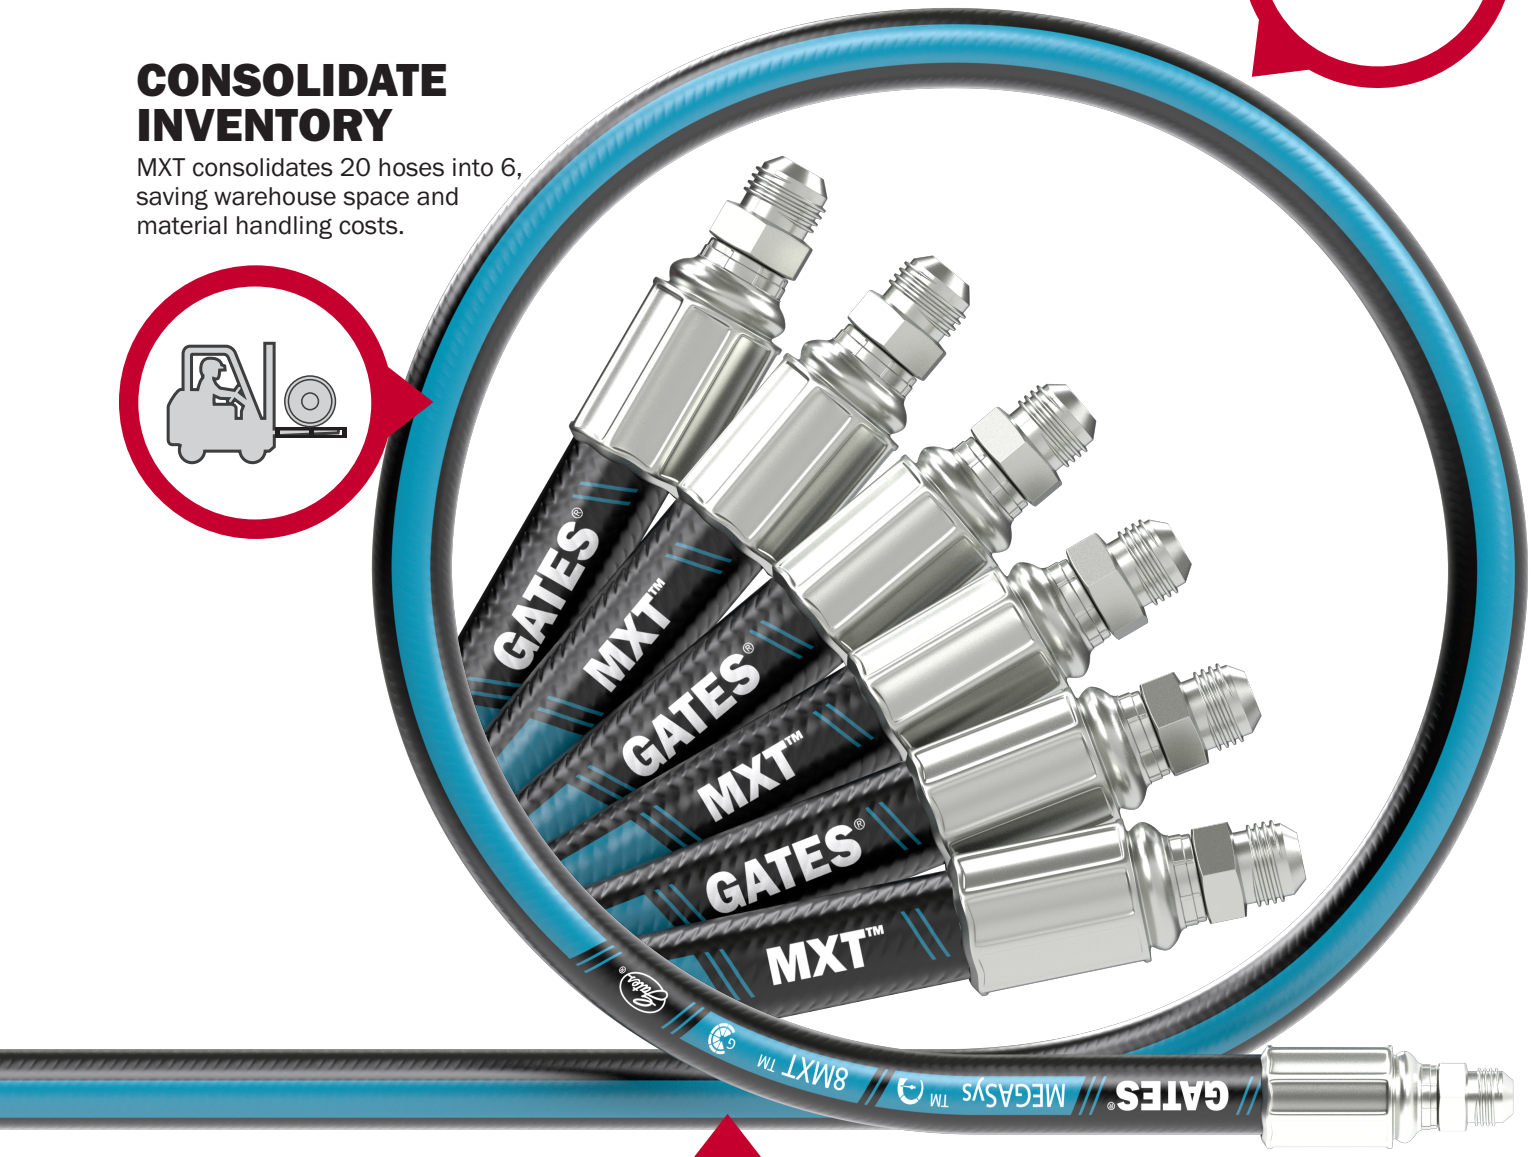
DRIVEN BY POSSIBILITY™

AVAILABILITY

Stock 6 SKUs instead of 20. With MXT, you'll always have the right hose in stock for your customer.

CONSOLIDATE INVENTORY

MXT consolidates 20 hoses into 6, saving warehouse space and material handling costs.



MULTI-SPECIFICATION HOSE

100R16
100R2
100R17
100R19
2SC

MXT is a cross-functional hydraulic solution covering 90% of the hydraulic wire-braid market, giving you the right hose at the right time.

MXT™

DESIGNED TO CLEAR SHELF SPACE

BECAUSE

OPERATIONS DEMAND EFFICIENCY

DRIVEN BY POSSIBILITY™

FASTER AND EASIER ROUTING

Overcome bottlenecks and reduce mis-routings with MXT. Faster assembly means increased output for your operation.

REDUCE MATERIAL COSTS

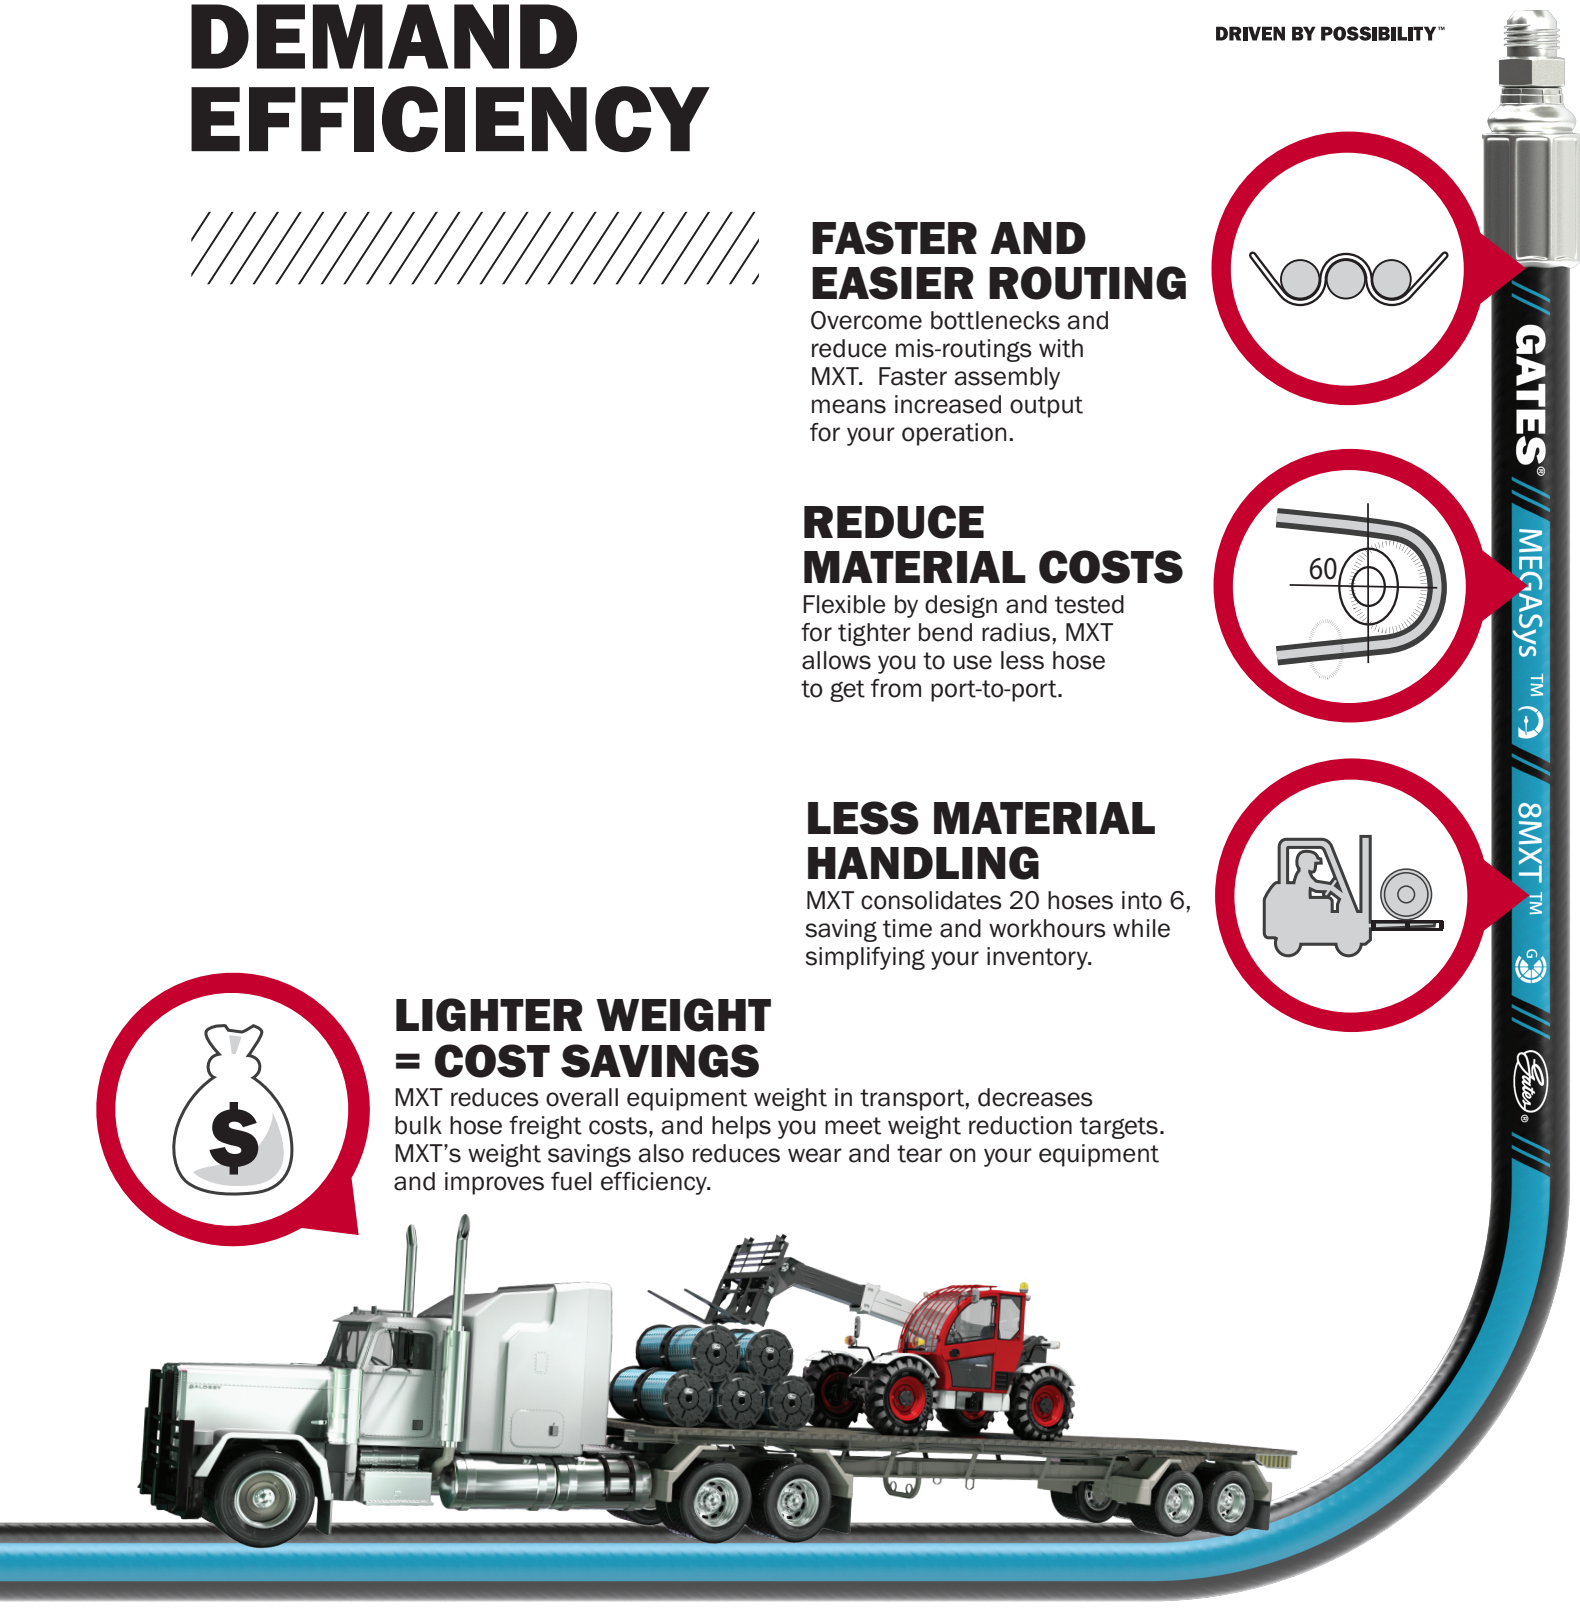
Flexible by design and tested for tighter bend radius, MXT allows you to use less hose to get from port-to-port.

LESS MATERIAL HANDLING

MXT consolidates 20 hoses into 6, saving time and workhours while simplifying your inventory.

LIGHTER WEIGHT = COST SAVINGS

MXT reduces overall equipment weight in transport, decreases bulk hose freight costs, and helps you meet weight reduction targets. MXT's weight savings also reduces wear and tear on your equipment and improves fuel efficiency.



MXT™

SIMPLICITY IS A STRATEGIC ADVANTAGE

BECAUSE

PERFORMANCE WINS

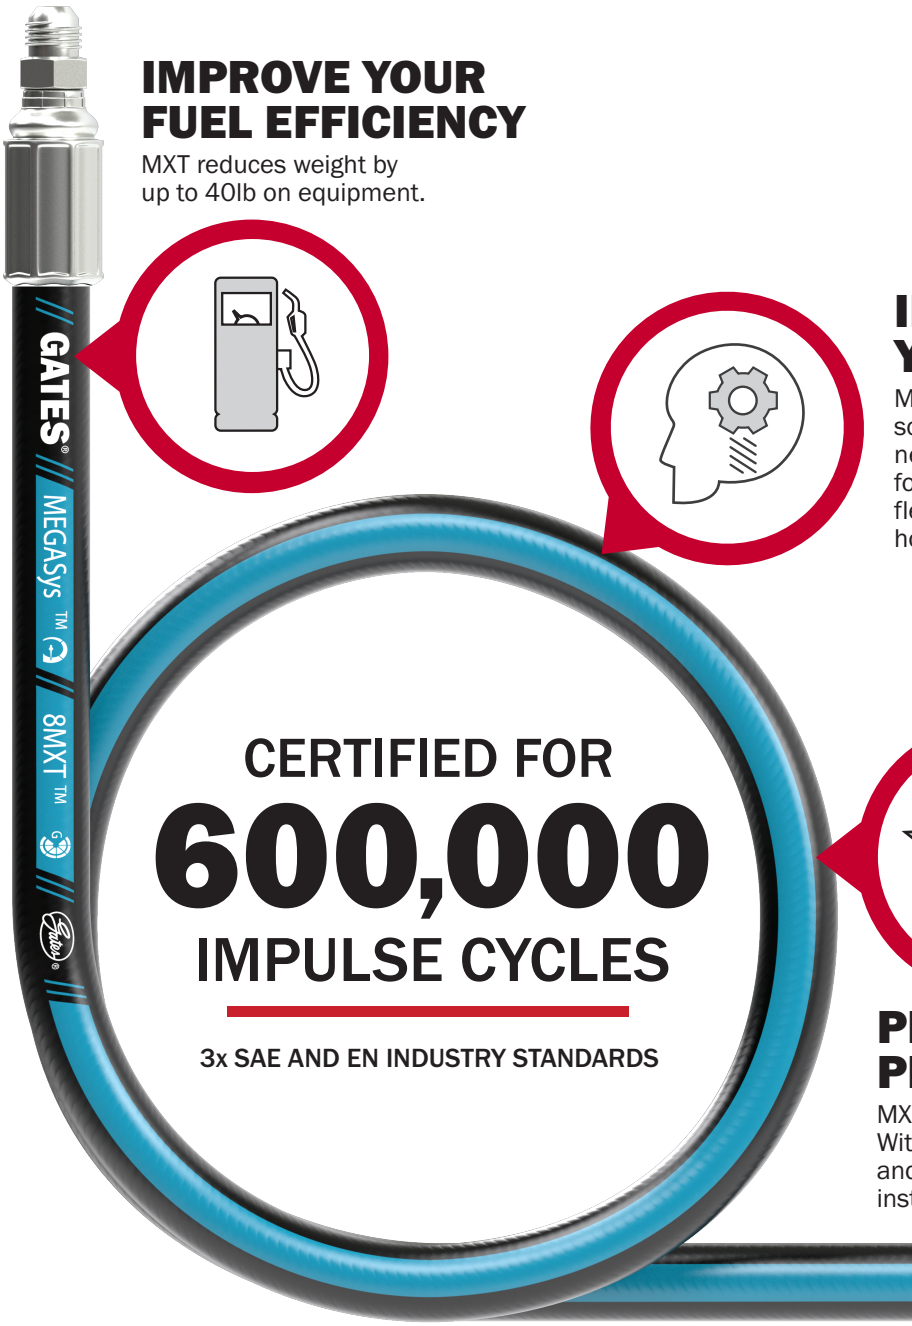
DRIVEN BY POSSIBILITY™

IMPROVE YOUR FUEL EFFICIENCY

MXT reduces weight by up to 40lb on equipment.

INNOVATE YOUR PROJECT

MXT is engineered with Gates materials science expertise offering you enhanced new wire technology and a slimmer profile for compact areas. MXT delivers weight and flexibility advantages, while simplifying hose replacement and service.



CERTIFIED FOR

600,000

IMPULSE CYCLES

3x SAE AND EN INDUSTRY STANDARDS

PREMIUM RELIABLE PERFORMANCE

MXT exceeds industry performance standards. With greater flexibility, a smaller bend radius, and lighter weight, it's easier to route and install in tight, complex spaces.

MORE RESPONSIVE EQUIPMENT

Less weight on extended boom arms is just another advantage of MXT.

MXT™

ENGINEERED AS YOUR UNIVERSAL HYDRAULIC SOULUTION

BECAUSE

OPERATIONAL CHALLENGES WERE MEANT TO BE OVERCOME

DRIVEN BY POSSIBILITY™

HOW DID GATES DO IT?

MATERIALS SCIENCE INNOVATION.

PUSHING BOUNDARIES

Enhanced wire technology and increased wire braid pack density make MXT a lighter, stronger, more flexible cross-functional hydraulic solution.

EXCEEDING EXPECTATIONS

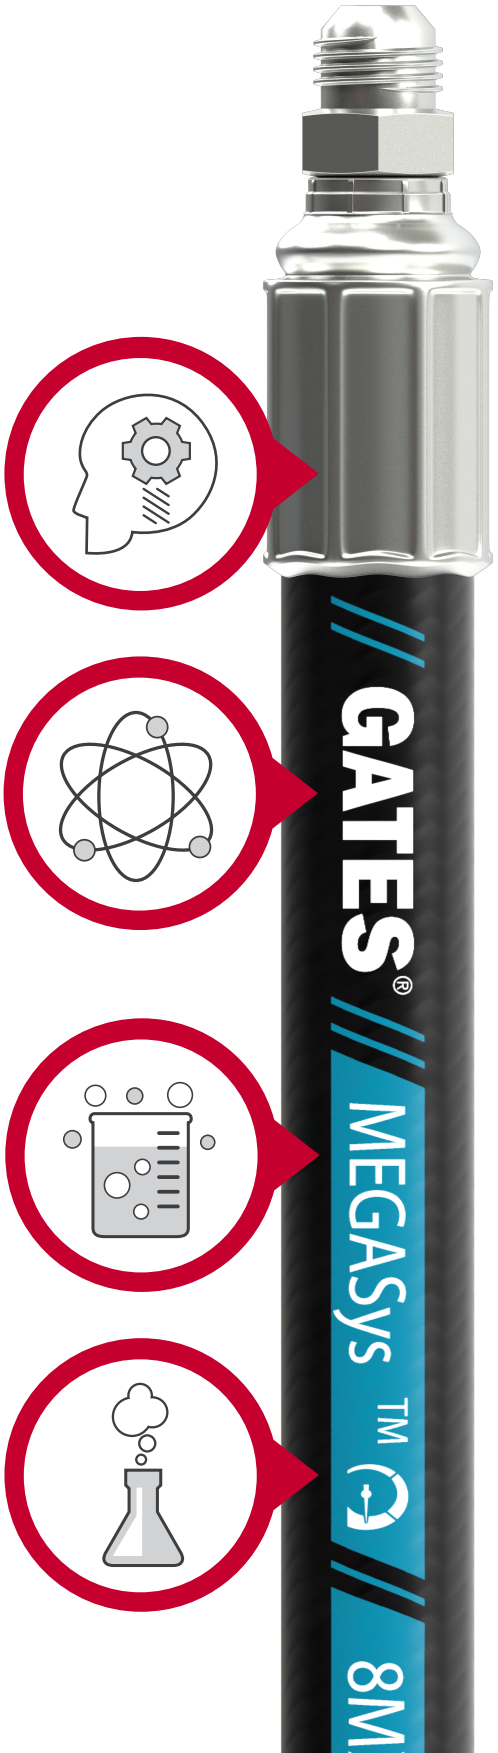
At Gates, we engineer application-specific solutions using premium materials that offer the best performance, like the proprietary, new wire braiding process developed for MXT.

INTENTIONAL INNOVATION

This process of discovery and intentional innovation leads to technology breakthroughs, allowing us to create solutions that exceed the expectations of our customers around the world.

PREMIUM PERFORMANCE

Our Materials Scientists designed MXT to be flexible and lightweight without compromising quality or durability. It performs at 600,000 impulse cycles, 3x SAE and EN industry standards.



MXT™

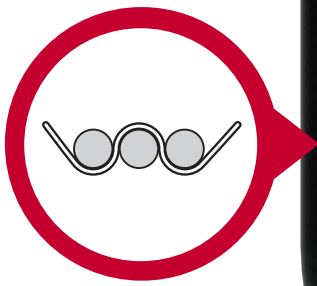
INNOVATION NEVER RESTS

MEET MXT. THE NEXT GENERATION OF PREMIUM HYDRAULICS.

DRIVEN BY POSSIBILITY™

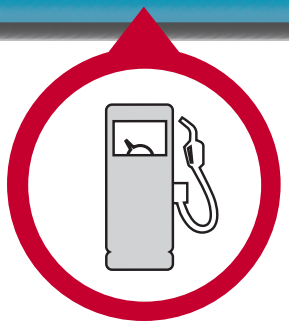
OPERATIONS DEMAND EFFICIENCY

Faster routings, lower material handling costs, and reduced hose lengths – all from MXT.



LIGHTER WEIGHT AND MORE FLEXIBLE

Materials and Process Expertise deliver a lighter and more flexible product.



PERFORMANCE WINS

Lighter weight means improved equipment performance and fuel efficiency.

YOUR PEOPLE MATTER

More ergonomic installation and easier lifting for the people you rely on to make business happen.

SIMPLIFIES AND EXCEEDS SPECS

MXT not only meets but exceeds multiple industry specifications with one hose.

IMPROVE INVENTORY COSTS

Consolidate inventory, save floor space, and simplify hose selection with a multi-purpose hydraulic hose.

MXT™

REDEFINING WHAT'S POSSIBLE AROUND THE WORLD

BECAUSE

YOUR PEOPLE MATTER

DRIVEN BY POSSIBILITY™

IMPROVES ERGONOMICS

Easier MXT routing reduces fatigue and strain during installation, which can reduce Lost Time Incidents. Fewer injuries lead to a stable work-force and employee satisfaction.
