

CASE STUDY

ENERGY, EXPLORATION, EXTRACTION

INDUSTRY

› Facility - Hotel

APPLICATION

› Air handling units at a beach resort

ORIGINAL DRIVE DESCRIPTION

› The resort had over 300 drives in operation that were operated with standard V-belts

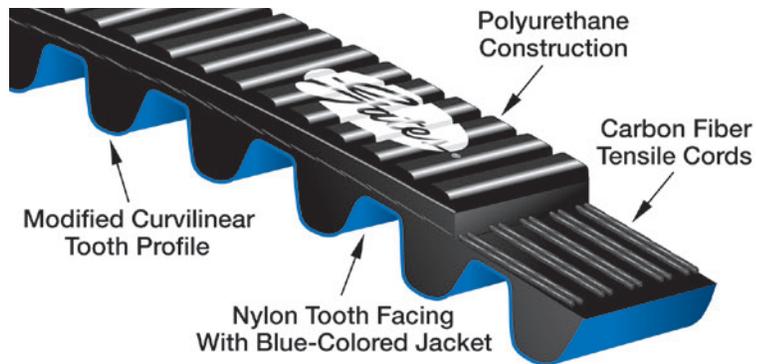

Problem

With so many cooling units, the resort was looking for a way to save on their energy bills. Maintenance teams were having a problem with short belt life and downtime as well; each of the 300 belts had to be replaced every three months.

Solution Drive Description

Poly Chain® GT® Carbon® drives of various lengths and sizes, depending on the unit

Benefits of Gates Drive

Switching to efficient Gates drives has saved this resort over half a million dollars and countless hours of maintenance.
