## CUTTING COSTS DOES NOT MEAN CUTTING CORNERS

BOOST YOUR OPERATIONAL STRENGTH AND RESILIENCE

**Getting the most out of your plant and machinery is essential to staying productive.**

That's why hydraulic hose failures are more than just an inconvenience—they lead to unplanned downtime, expensive outsourced replacements, and missed deadlines you simply can't risk.

Now, imagine producing your own hose assemblies in-house. Less downtime. More cost-effective operations. Projects back on track-fast.

If you want to make the transition to producing your own hydraulic hose assemblies, then get onboard with Gates self-assembly programme. It offers everything you need to manufacture factory-quality assemblies in-house and on-site.

From crimpers to couplings, hoses to how-to, the programme has you covered. And being self-sufficient is closer than you think. Our network of experienced distributors can advise, train, and supply all the inventory needed to take that important first step. Get ready. It's time to crimp with confidence.

Learn how to maximize safety and efficiency directly from the experts through our easy-to-follow tutorials, available exclusively on our landing page. Unlock the full potential of your Gates Crimping Machinery with our step-by-step instructional videos. Get started today to boost your productivity and cost efficiency with Gates machinery!
