GATES SELF-ASSEMBLY PROGRAMME

TAILOR-MADE SOLUTIONS

Eliminating costly, prolonged downtime is easier than you think!

With the Gates Self-Assembly Programme, you take control - producing your own hydraulic hose assemblies in-house. It's a straightforward solution that gets your equipment up and running quickly, with minimal disruption and at a cost that makes sense for your bottom line.

With Gates' extensive distributor network, you'll be up and running with factory-quality hose assemblies in no time. The Self-Assembly Programme includes everything you need—from validated components to a range of crimping machines and essential accessories.

Your local distributor is there every step of the way—offering support with installation, hands-on training, and a complete inventory of products to help you get started and stay ahead.

Listen to our distributor Paul Forrer share how they help customers succeed.
