

DRIVEN BY POSSIBILITY™

QUAD-POWER™ 4

BECAUSE SERVICING ALWAYS COMES AT A BAD TIME

By using innovative minimal-stretch cord technology, Gates Quad-Power 4 bandless V-belts are **free of maintenance**. Unlike conventional belts, the Quad-Power 4 V-belt does not suffer from severe tension decay in the first hours after installation. Therefore, no run-in period or re-tensioning is required. This **new-generation EPDM SERVICE-FREE** belt is designed to extend product life, eliminating costly downtime for re-tensioning, repair, and replacement.

100% SERVICE FREE EPDM V-BELT

FEATURES + BENEFITS

- Service-free: no stretch, no re-tensioning
- Energy efficiencies up to 98%
- Clear branding for ease of identification
- Crack and damage-free in extremely high and low temperature conditions
- Allows for a more compact drive design resulting in reduced drive width, weight and costs
